- ▶ Clinical teaching of 4th year PharmD students
- ▶ Grant writing & submission
- ▶ Protocol & study design
- ▶ Pharmacy practice- and outcome-based research methodology
- ▶ Clinical trial management
- ▶ Statistical software applications (e.g., SAS, R) and performing statistical analyses
- ▶ Abstract & manuscript preparation and submission to peer-reviewed journals
- ▶ Book chapter development
- ▶ Research presentation (oral or poster) at professional meetings
- ▶ Seminar presentations
- ▶ Human subjects protection & Institutional Review Board processes
- ▶ Budget preparation & management
- ▶ Career development
- ▶ Effective mentoring
- ▶ Interdisciplinary teamwork
- ▶ Peer review process for journals
- ▶ Editing a monthly pharmacotherapy newsletter

Training Site

This fellowship is housed at the UF Family Medicine at Main St clinic in North Central Gainesville, FL, approximately 2 miles from the UF main campus. The practice site is the primary location at UF for education of medical students and 30 residents in Family Medicine.

Application Process

Interested applicants should contact the fellowship directors prior to submission of application materials.

Application Materials:

- ▶ **Letter of Intent** describing reasons for pursuing a fellowship and clinical/research interests
- ▶ **Curriculum Vitae**
- ▶ Three (3) **Letters of Reference**

An onsite interview is required.

Clinical Opportunities

The fellow will serve as co-director of the pharmacotherapy and anticoagulation clinic

Additional opportunities include:

- ▶ Transitions of care
- ▶ High-risk clinic
- ▶ Inpatient Family Medicine
- ▶ Equal-access after hours clinic

Teaching Opportunities

The fellow will have opportunities in the Doctor of Pharmacy curriculum to:

- ▶ Create and deliver lectures, lead case discussions, and develop test questions
- ▶ Co-coordinate the capstone course
- ▶ Develop and deliver topic discussions to ambulatory care rotation students

Additional opportunities include:

- ▶ Lectures & leading case discussions in the Physician Assistant (PA) Program
- ▶ Lectures & case discussions in the Family Medicine Resident didactic sessions

Research Opportunities

The fellow will design, initiate, and conduct new research pertinent to ambulatory care and in line with their own research interests

Opportunities include:

- ▶ Participation in ongoing prospective, multi-center clinical trials
- ▶ Retrospective observational studies using UF's i2b2 integrated data repository or other administrative datasets
- ▶ Cross-sectional analyses using large national survey datasets (e.g., NHANES)
